PROFESSIONAL SUMMARY

Senior Graphic Designer with 24 years of experience, including 21 years in the UAE, specializing in creative design, AI-powered workflows, and automation. Experienced in integrating generative AI tools and LLM-based applications to enhance creative production, streamline processes, and develop innovative digital solutions. Seeking opportunities to contribute my combined expertise in design, AI, and technology to drive creative and operational excellence.

EXPERIENCE

Senior Graphic Designer | AI Workflow Specialist | LLM Application Builder

Eleven777 Advertising LLC, Dubai | 2011 - Present

AI PRODUCTS & AUTOMATION

> Creator of VectorGuard AI, an AI-powered vector file verification system designed to automate print and prepress validation workflows.

> Built Eleven777 Estimate AI, a web-based estimation platform using Codex, Lovable.dev, and LLM workflows to automate project estimation and proposal generation.

> Developed AI-powered internal tools and LLM-based applications using Python, APIs, and generative AI technologies to streamline design verification, enhance creative workflows, and improve production efficiency.

RESPONSIBILITIES

> Integrating AI-powered tools and LLM-based automation into the creative workflow to accelerate concept development, campaign ideation, and overall production efficiency.

> Conceptualize and design innovative digital solutions for a wide range of clients, including websites, social media campaigns, and interactive presentations.

> Mentor and guide junior designers, providing constructive feedback and fostering their professional growth.

> Stay updated with the latest design trends, tools, and technologies to enhance the quality and effectiveness of design deliverables.

> Successfully manage multiple projects simultaneously while meeting tight deadlines and maintaining a high level of quality.

> Developed and executed creative design concepts for various marketing collaterals, including brochures, flyers, logos, and branding materials.

> Worked closely with clients to understand their requirements, provide design recommendations, and deliver customized design solutions.

> Troubleshooting, software installations, resolving networking issues, configuring system setups, implementing backup solutions, and providing assistance to colleagues with inquiries related to software matters.
